# TOUCH-BAR PANIC DEVICES

#### **MAIN FEATURES**

#### **ADVANCED DESIGN**

- PVD treatment is a special technology from the aerospace field, combining design and a high resistance to wear and abrasion.
- The balance of style, size and weight, as a result of an accurate design, makes "SBLOCK PVD" suitable for any kind of environment.

### **EASY TO INSTALL**

• Special design features make "SBLOCK PVD" easy and quick to install, on wooden, steel or aluminium doors.

#### **MODULARITY**

• The basic "SBLOCK PVD" model can be combined with top/bottom or lateral bolts, for single or double leaf rebated and swinging doors, and with outside operation devices.

## RELIABILITY

 "SBLOCK PVD" is produced with high quality materials and reliable operating mechanisms to guarantee efficiency and durability.

## CERTIFICATION AND CE MARKING

- The materials and technical solutions adopted allow the highest standards to be respected, leading CISA to obtain markings and certifications such as:
  - CE marking according to EEC DIRECTIVE 89/106 released by AENOR:

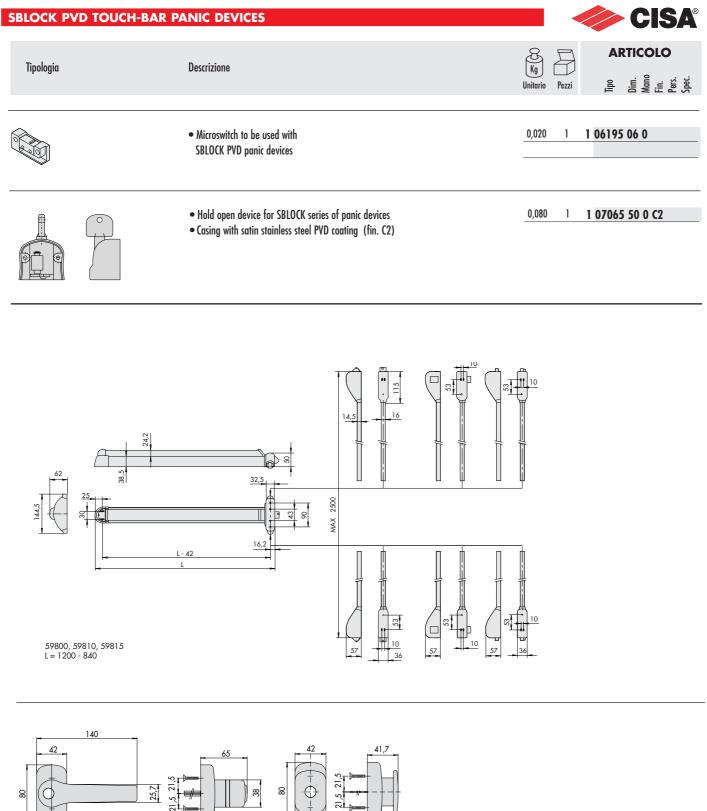

certificate no. 0099CPD/A44/001 – for use on standard doors, certificate no. 0099CPD/A44/002 – for use on fire doors

- Voluntary product certification released by third party ICIM as provided for by UNI EN 1125 standards.
- All CISA "SBLOCK" devices bear CE marking since June 2002 and are ICIM certified since March 2002.
