Compact Series

Digit Plus and Digit Plus Memory: security for business users.

Easy to use, thanks to the display and the beeper. Ideal for business needs: the perfect size for a laptop computer, with an optional internal universal power socket to recharge the batteries of any electronic device in conditions of total security.

LAPTOP SIZE CAPACITY

The size is designed to accommodate comfortably a laptop PC and other belongings (Digit Plus).

DISPLAY

Shows all basic user information in a simple and intuitive manner.

EASY TO USE

Type in the code and the door opens automatically.

MASTER CODE

Allows service opening when guests forgot their user code.

LOW POWER CONSUMPTION

The 4 standard AA size alkaline batteries (supplied) have a 3-year lifetime. No need of external wiring.

MOTORIZED LOCK

Long life, high security, low power consumption. Two bolts.

INTERNAL UNIVERSAL POWER SOCKET (OPTIONAL)

Recharging facility for all types of electronic devices whilst fully protected inside the safe.

BRAILLE KEYPAD

USER CODE

4 or 6-digits code with up to one million different combinations.

BEEPER

In combination with the display, the beeper notifies the user of wrong operations and errors.

LEFT-HANDED OPENING (OPTIONAL)

For the maximum compatibility with all types of installation environments.

OPENING DELAY (OPTIONAL)

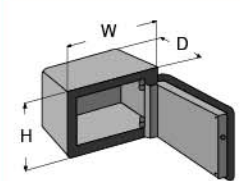

To protect guests privacy in case of opening with master code: the operator can leave the room before the safe opening.

Digit Plus Memory.

No one can use the safe without leaving tracks.

AUDIT TRAIL OF THE LATEST 100 OPERATIONS

The Audit Trail function stores the latest 100 operations performed on the safe (opening/closing with master code or user code and use of the mechanical override).
